

## Irrigation Hose

### IRKHL HyperLite – Polyester, TPU Lined

Driven by industry feedback, Kochek has leveraged our decades of experience in firefighting manufacturing technology to produce an all-new hand watering hose that is smoother than ever and exceptionally light. The new HyperLite Irrigation Hose is made of the highest quality premium materials and features Kochek's resilient, long-lasting couplings.

#### Main Features

- Available in 1" and 3/4" diameters.
- Up to 25% lighter than the competition – 1" x 100' weighs just **11 pounds!**
- Working pressure ratings outperform similar products:
  - 1" – 400 PSI WP
  - 3/4" – 300 PSI WP
- Smooth outer weave resists abrasion and glides over turf and greens without damage.
- Polyester single jacket construction with thermoplastic urethane (TPU) liner.
- Helical monofilament jacket reinforcement provides kink and crush resistance.
- Zinc plated spring type strain reliefs at each end further protect against kinking.
- Urethane liner minimizes friction loss ensuring maximum water flow.
- Stocked in standard lengths – 50', 75', 100', and 125'. \*\*

#### Connections

- 1" NPSH size features full-flow internally-crimped aluminum couplings, straight from our firefighting line.
- 3/4" GHT size uses heavy duty externally-crimped brass couplings.

#### Colors & Finishes

- Hose is available in either Green (1") or Red (3/4").
- 1" aluminum couplings are finished in natural hardcoat for excellent corrosion and abrasion resistance.

#### Warranty

- 1 Year Manufacturers Warranty
